

Get Ready for PoE

Get Ready to Certify that Networks Comply with the Standards Requirements for PoE and Upgrade Your Old non-Compliant Cable Tester to a DSX CableAnalyzer™

Get € 2000/£ 1800 for your old tester NOW

Even during difficult times, the Internet of Things (IoT) has continued to grow with increasing number of people, processes, data, and things connecting to the Internet and each other.

Research conducted by Cisco has highlighted that by 2023, in Western Europe almost 70% of networked devices will be wired or connected over Wi-Fi.

Wired devices, including Digital Signage, Lighting and Wi-Fi Access Points, will increasingly be powered by Power-over-Ethernet (PoE) as its deployment results in lower cable costs, simplified infrastructure management, easier maintenance, less downtime, greater installation flexibility, and reduced power consumption.

With the 1000 MHz DSX2-5000 and 2000 MHz DSX2-8000 CableAnalyzers you are able to certify the (field terminated) modular plug terminated link (MPTL) that typically connects the PoE device to the network. On top of that you can execute "+PoE" tests that trigger a complete set of resistance measurements that ensure proper PoE operation is possible on the link.

And, NOW is particular good time to upgrade your old tester to a DSX. For a limited time, Fluke Networks is offering € 2000 trade-in discount!

IT'S AS EASY AS...

- 1 Place a purchase order for a "T" version of one of the above mentioned model numbers (ie. DSX2-5000/T or DSX2-8000/T) with your preferred participating distributor. By ordering a "T" you order the instrument at the promotional price (list price less trade-in discount) offering you instant gratification.
- 2 Go to www.dsxdeal.com immediately after receiving your new DSX to print the shipping document and label for your old tester. IMPORTANT: The shipping document contains a unique ID with which we track your shipment once it arrives in our warehouse. Customers outside the European Union should ship their tester with the DSXDeal shipping document to their distributor.
- 3 If the old tester is not returned within 30 days after the shipment date of the new DSX, Fluke Networks will invoice your distributor the amount of the trade-in after which the distributor will invoice you.

Get Ready for PoE

Should you not have an old tester to return or simply want to keep it, Fluke Networks will offer you a free MicroScanner PoE Kit with the purchase of a DSX2-5000 or DSX2-8000

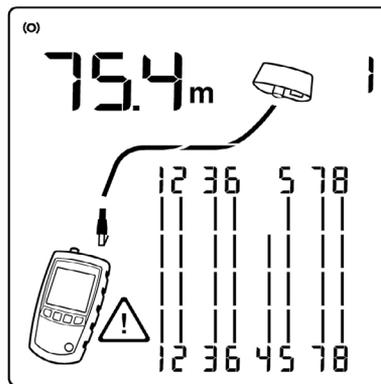

[Click here](#) to learn how to take advantage of the free MS-PoE offer.

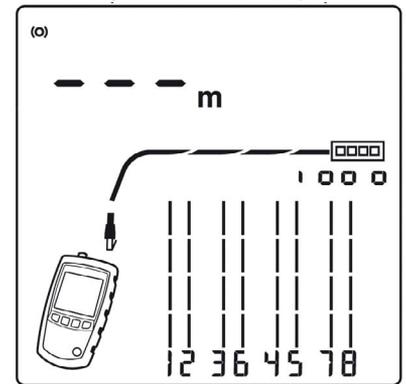

MS-PoE-Kit

MS-PoE displays the available PoE class (0-8) from 802.3at, .3af and .3bt devices, and voltage from passive PoE sources. Available services (up to 10G), cable length, wiremap, cable ID, Intellitone toning, and distance to fault are also provided.

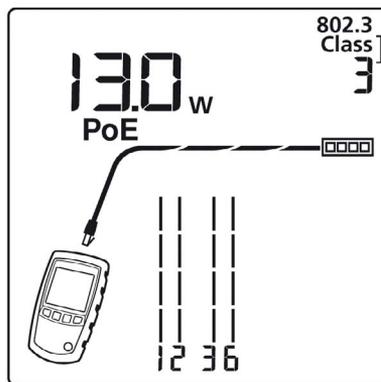

Open on Twisted Pair Cabling

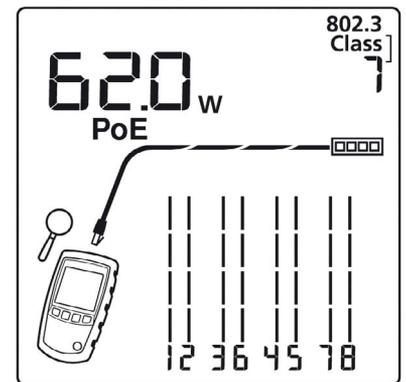

Port Speed for a Active Port (up to 10,000 bps)

Single-Signature PoE

Dual-Signature PoE

DSX Trade-In Terms and Conditions

- Discounts are incorporated in the prices of the /T model numbers listed above and cannot be claimed when purchasing any other Fluke Networks product.
- Trade-in instruments that are being returned must have a similar functionality as those being purchased and can be of any make, any model. We only accept trade-in units that turn on, although the returned instrument will be considered functionally similar to the purchased DSX.
- If old instruments are not returned within 30 days after the day that Fluke Networks shipped your new DSX to your distributor, invoicing will occur of the already granted trade-in discount.
- The customer is responsible for shipping the old testers to Fluke Networks or, outside the European Union, to their distributor. The distributor will then arrange local recycling of the old equipment.
- This offer is valid in the European Union, Norway, Switzerland and the UK through participating distributors only, on purchases made between September 1st, 2020 and December 15th, 2020.
- This trade-in promotion may not be used or combined with any other promotion or special discount offer.
- To the full extent allowed by applicable law, this offer is subject to change without notice.
